What is a state?

?

The state is:

government — government, state, board, leadership, authority, state power

state — condition, state, position, staff, status, structure, form

nation — nation, people, country, state, nationality, community

The state is:

State vs. Country

A country is a territory with political, physical, geographical, cultural or historical boundaries that are clearly defined and fixed.

And

What is a municipality?

A municipality is:

from Latin **municipium** - self-governing community

administrative-territorial unit governed by local government bodies

A municipality is a populated area where local self-government is exercised in Russia.

What is management?

Management in socio-economic systems:

— is a process that ensures **the transfer of the system from the initial state into the final** state by means of purposeful influence with the aim of maintaining or changing a state or behavior.

Control

Control

Control

Control

Subject of management –
